### PROFILE SUMMARY

Aspiring software engineer, driven by a strong passion for creating visually appealing and user friendly web applications. Equipped with a solid foundation in front-end technologies and eager to expand my knowledge in back-end development. Committed to deliver high-quality results and optimum performance by working collaboratively in a friendly and dynamic environment.

### PROJECTS

#### Vin Check Central [www.vincheckcentral.com](http://www.vincheckcentral.com)

Vin Check Central offers detailed vehicle history reports using the VIN, including ownership titles, accidents, damage, and recalls. This service helps buyers and sellers make informed decisions about a vehicle's past

#### Ahmed & Rehman Builders & Developers [www.ahmedrehmanbuilders.com](http://www.ahmedrehmanbuilders.com)

Ahmed & Rehman Builders & Developers deliver highquality residential and commercial projects. Their website highlights their portfolio, ongoing projects, and services, emphasizing excellence, innovation, and customer satisfaction from planning to execution.

#### Bee Truth Speaker [www.beetruthspeaker.com](http://www.beetruthspeaker.com)

Bee Truth Speaker amplifies the Palestinian voice on social media. Users can share pro-Palestine content, respond to events, and support Palestinian rights, increasing visibility for important narratives.

#### Threadz Clothing Apparel [www.threadzapparel.netlify.app](http://www.threadzapparel.netlify.app)

Developed and maintained Threadz, a trendy e-commerce platform using React for a responsive interface and better performance. Collaborated with design team to create a modern, visually appealing site. Utilized Redux for efficient state management.
